

Small Vent and Light (Exhaust and Light 3)

Provides a light and exhaust fan that can be placed above a shower as it uses a low voltage light and a fan separated from the vent.

It consists of the fitting (two sizes available), low voltage light, transformer, an in-line fan, ducting and an outside vent. Various fans are used according to the room size and the length of ducting needed.

The standard finish is white with chrome and brass finishes as an option.

Dimensions

Model	Face Size (mm)	Cut-out Size (hole) (mm):	Height inside ceiling (mm)
100mm	150	103	230
150mm	200	155	280
